

Dear Netcong Learning Community,

As we are entering the cold, flu, and COVID season, I wanted to take a moment to remind families how to take precautions against getting sick by:

- Washing your hands often in warm, soapy water for at least 20 seconds;
- Utilizing hand sanitizer to disinfect hands if handwashing is not an option;
- Avoiding touching your eyes, nose, and mouth with unwashed hands;
- Avoiding close contact with people who are sick;
- Staying home with your child if he/she is sick;
- Staying home if you are sick;
- When coughing and/or sneezing, cover your mouth with a tissue and then discard it;
- Cleaning and disinfecting frequently touched objects and surfaces.

As a district, we continue to take steps to ensure we keep our school functioning as normal. Tables, desks, chairs, bathrooms, doorknobs, banisters, etc. are cleaned daily and then disinfected with Buckeye ECO One-Step Disinfectant-Deodorizer – Cleaner. Our cleaning staff has been trained on how to thoroughly clean and disinfect surfaces in the building.

If you have any questions, please feel free to contact us. I wish you and yours a safe, healthy, and Happy Thanksgiving. Be well.
